Introduction

The following information is for internationally qualified nurses applying for registration with the Nursing Council of New Zealand (the Council) following the introduction of the Health Practitioners Competence Assurance Act 2003 (the Act) on 18 September 2004.

The principal purpose of the Act is to protect the health and safety of members of the public by providing mechanisms to ensure health practitioners are competent and fit to practise their professions.

The Act requires that nurses must be registered in a scope of practice and applicants for registration must:

- have the prescribed qualifications
- be fit for registration, which includes the ability to communicate in and comprehend English for the purpose of practising nursing
- be competent to practise within their scopes of practice.

Scopes of practice

The Council maintains a register of all nurses registered with the Council. Nurses are registered in the following scopes of practice:

- Registered nurse
- Enrolled nurse
- Nurse practitioner

_N.B._ Nurses must be registered in the registered nurse scope of practice before applying for nurse practitioner status.

Enrolled nurses: Overseas-educated second-level nurses will be registered under the Act as enrolled nurses.

Conditions may be included in an individual's scope of practice to clarify the practice setting and/or specify any other conditions determined by the Council.

The following table sets out some examples of how overseas nurses’ registrations translate to the New Zealand scopes of practice and conditions.

The list of approved competence assessment providers in New Zealand can be viewed on the Nursing Council website: [www.nursingcouncil.org.nz](http://www.nursingcouncil.org.nz)

What if I disagree with your decision?
You may disagree with the decision and want to discuss the outcome or provide further information. If this is the case, you should write to the Registration Manager explaining why you disagree with the decision and setting out any concerns or questions you may have.

Review/Appeal of the decision to decline registration
